

NumAn 2012: Fifth Conference in Numerical Analysis - September 5-8, 2012, Ioannina, Greece

NumAn2012 Conference in Numerical Analysis

Invited Speakers :

E. Gallopoulos (Hellas)
E. Georgoulis (UK)
S. Larsson (Sweden)
S. Serra Capizzano (Italy)
C. Tsogka (Hellas)

Organizing Committee:

G. Akrivis (Ioannina)
V. Dougalis (Athens)
A. Hadjidimos (Volos)
I.S. Kotsireas (Waterloo)
C. Makridakis (Heraklion)
D. Noutsos (Ioannina)
Y.G. Saridakis (Chania)
M.N. Vrahatis (Patras)

Local Organizing Committee:

G. Akrivis
D. Noutsos
P. Vassalos (Athens)

Themes:

- numerical methods and algorithms
- applications of numerical methods
- scientific computing

Areas:

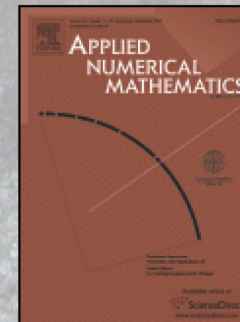

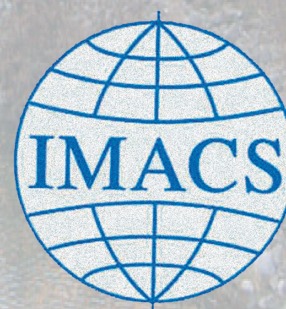

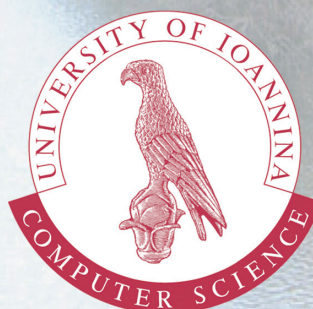

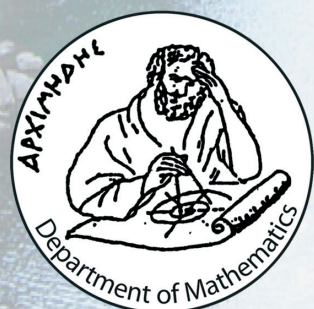

- numerical methods for differential equations
- numerical linear algebra

Aims:

- foster an exchange of views and ideas
- study the theoretical background required for methods
- search directions of theoretical results towards applications
- highlight open problems and future directions of numerical analysis
